

Lesson 1: Feedback

Make a bar graph or pie chart

COMPULSORY - Please send to AMGA

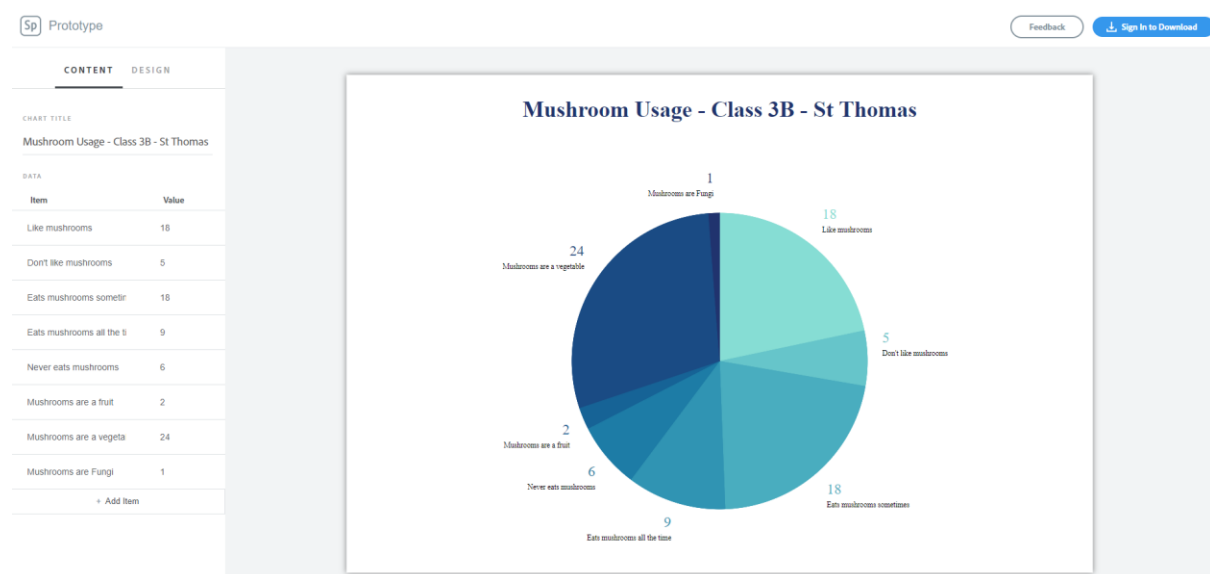

Make a bar graph or pie chart to present the survey results. At the end of the lesson plans, you will be required to survey the students again. You can compare this charts to review the changes in knowledge and general attitudes towards mushrooms.

Use your preferred method of creating a graph.

SUGGESTION: Adobe Spark is free and simple to use. You can take a screen shot to share the results.

Click DESIGN to change the chart type. Choose from Pie, donut, bar or line chart.
